- React, Node.js, Express.js, MongoDB
- Project Link: <https://habit-us.netlify.app/>

#### ○ MATCH! EMPAREJA! EMPARELLA! (Desktop game)

- Developed a desktop matching memory game as a first ever coding project.
- HTML5, CSS3, JavaScript
- Github link: <https://github.com/vricart/memory-game>

### WORK EXPERIENCE

#### ○ OCT 2019- JUN 2022

Ina Rinderknecht Interior Architecture | Zurich, CH

##### INTERIOR DESIGNER

- Delivered and executed plans and specifications for 5+ high-end residential and hospitality projects, maintaining schedule, budget, and scope.
- Facilitated projects from concept to installation, ensuring cohesive delivery.
- Consulted with vendors to obtain samples, pricing, and product information within budget and timelines.

#### ○ SEP 2018 - OCT 2018 | DAAA Haus | Milan, IT

##### DESIGN INTERN

- Created and developed design plans according to client needs with multiple reiterations until client's satisfaction.

#### ○ APR 2011 - SEP 2014 | Rodrigo Vargas Design | Los Angeles, CA

##### JUNIOR DESIGNER

- Collaborated with senior designers to develop innovative design concepts for high-end residential and hospitality hotel projects.
- Created detailed presentations and selected materials, aligning with client specifications.

A full stack developer with a background in interior design and architecture, bringing a keen eye for detail and structured thinking. Organized and dedicated, excels at seeing projects through from concept to completion. Passionate about mobile development, with a focus on creating impactful and user-friendly applications.
